Table 1: Comparison of all algorithms on CEC 2017 benchmark suite across $D \in \{10, 30, 50, 100\}$ dimensions: F1–F3 unimodal, F4–F10 multimodal, F11–F20 hybrid, F21–F29 composition. Budget: $10D \times 10,000$ FEs, 30 independent runs. Bold value in each row indicates the best average error.
